GEORGE W. WARNER, Notary Public. STATE OF TENNESSEE, Compteoller's Office, NASHVILE, February 3, 1858.)
This is to certify that the Benouscour Issurance Con-PANY, located at Bridgeport, in the state of Connecticut, has complied with all the requirements of an act passed by the General Assembly of the state of Tennessee, in March, 1856, entitled "An Act to regulate the agencies of Insurance Companies not incorporated by the Statof Tennessee," and that Joseph Nasu is the legally an thorized Agent of said Company in the town of Nash

ville, State of Tennessee.

The Greatest Invention of the Age. West's Patent Galvanic Cement. FOR ROOFING.

THE subscriber is now prepared to cover roofs of buildings, with a new and better article than ever before known. The public are aware that our Govern-ment has had scientific men experimenting, and that it has been the study of the Architects and Builders, for years, to discover an article for rooting purposes, that would stand the sudden changes of the weather, and be impervious to fire and water, and remain a permanent fixture. As yet, nothing has been attained with tion, expansion and rusting of metal roofs, are so great in changeable climates, that they become useless, unless being repaired at great expense yearly. Shingles are not fire proof, and can not be used on flat roofs, and the various Compositions and Cements that have been brought into use for roofing, do not stand the ac-tion of the weather, but they run when it is warm, and crack when frosty, and after one or two years become rumbly and worthless; whereas the inventor of the salvanic Cement, has labored twenty years to combine articles to obviate those difficulties, and can testify from his long experience, and numerous testimonials from reliable persons, who have had his combination applied o their buildings, that his Cement is the cheapest and best article ever before known. The combination of this Cement is such that it is calculated for entire new roofs, flat or steep, covering over old shingles without removing them; linking cave troughs, scaming around battlements, chimneys and sky lights. Coverng car-tops, steamer-decks, &c. This Cement, by its non-conduction and galyanism, prevents metal roots from rueting and onsoldering, and reasts the extremes of heat and cold better than anything ever invented, excellent passenger accommodations, and well adapt for entire roofs or for covering metal and the out sale of wood buildings, making them fice-proof. Its ap to me shall be promitty and faithfully atten pearance is like slate; beautiful for the rich palace or

the homale cottage.

The undersigned having secured the right to the State of Tennessee, will self rights of Territory, by Counties, or Tewns, on reasonable terms.

The subscriber is also prepared to cover roofs of buildings, in any part of the state, at short notice: This Roof is now being put on in this city, for the benefit of all concerned, and warranted to excel all other modes of Roofing. The subscriber has had his prode of Roofing tested as to its qualities during the last year and a half in the city of Memphis, which has proved satisfactory, to which a number of the most rominent citizens can testily.

itect, by which may be seen the opinion of Mr. Samuel Slean, the celebrated Architect and writer upon Architecture, whose experience with this mode of rooming, without a doubt, is satisfactory to all.
MEMERIS, March 12, 1857. Mr. W. S. Bennert — When in Philadelphia, Pa., a few days ago, I called upon Mr. Samuel Sloan, the celebrat ed Architect, and author of the Sioan Work on Architecture. I asked his opinion as to the durability, &c., of West's Patent Roof, such as you are using in the city of Memphis, and he told me that he had no besitation n saying to me that it is a good and durable roof, and sall that its advocates claim it to be, farther saying that he is using it on a fine building for himself.

Furniture repaired or made to order in the best properties. that he is using it on a fine building for himself.

W. S. RENNETT, Esq. - Dear Sir. - The facts within our knowledge of the dorability, &c., of West's fairwante Cement, are these, The building you covered for us last Spring, I am happy to state, has answered our expectations. We can, therefore, recommend it to the public for all roofing purposes; as a light, these, fire and water proof roof. It does not get soft and ron from the effects of the heat of the sun, nor does it harden and crack from the effects of the cold. To Whom it may Coscass.—This is to certify that
W. S. Bennett covered two roots for me last spring
with a composition called West's Patent Galvanic Cement, one of them was a new dock, the other an eld shingle roof, which are giving perfect satisfaction. He also repaired a demer window, which leaked badly, and had baffled the skill of Carpenters to prevent its leak-ing, which he succeeded in trusting perfectly tight.

MR. BENNETT:-Bear Sir :- Our company having been troubled very much with leaky cars, put some of your extends, I can cheerfully recommend it to any who wish a dry roof of any sort.

Yours, &c., H. COFFIN, Superintendent.

Mrs. Tens. Jan. 14, 1857.
To run Puntre;—W. S. Bennett made application to us last Summer to cover our buildings with West's Galyanic Cement; it being a new thing, we thought we would try it; had it applied to our Blacksmith Shop and Engine House, attached to the Foundry. They have proved all required of a water proof roof, having with stood some of the greatest storms, and are giving good satisfaction. We can only aid, try it and you will be satisfied. CURTES & KNAIT, Iron Founders.

Mr. Bennett has done some small amount of rooting for me in his peculiar way, with Cotton stuf, coated with a preparation the basis of which appears to be a Coal Tar. It is a very effectual and light-roof, and appears to promise considerable durability, from the preservative qualities of the composition, which penetrates the cloth and protects it from the influence of the sir and water. The Composition does not liquify and run from the effects of the least of the sun in Summer; nor does it harden and crack from the influence in the nor does it harden and crack from the influence in the cold of Winter.

PATENT CEMENT ROOFING.

Elastic Fire and Water Proof

THE undersigned is prepared to introduce into use in Tennessee W. E. CHILIS & CO'S PATENT ELASTIC FIRE AND WATER-PROOF CEMENT ROOF. ING, and asks the attention of Architects, Builders, Railroad Companies, and the public, to examine its superiority over other Rooting. Architects and Builders uld not fan to examine this Roofing, as it is bette

and cheaper than any thing in use. The materia forms a hard and smooth surface that will resist th action of the atmosphere in every climate. It is impervious to water, clastic, and flexible. It contracts and expands with the changes of the atmosphere, and will neither evaperate, crack nor rot; and, as to its durability, there is no question. It is practically imperishable, and will perfectly resist any ordinary external exposure to fire, as is fully and abundantly proven, and we will warrant it water proof. We will engage to put our Roofing on over or-dinary good sheathing, old shingles, tar and gravel, tin, zue copper, or fron roofs—it making no difference how steep or flat they may be—for seven dollars per one hundred square feet, it being far cheaper than any roof of the old style, and we are sure it will give bet-ter satisfaction. lt will also be found to be the best thing ever invented to cover or mend old leaky tin, tar and gravel roots, or around chameys, scuttles, dormer windows and gutters, where the tin is rusted through. This Cement can be put on to last as long as stone, and form a perfect adhesion to any object to which it is applied. The Roofs can be comented over (and warranted not to leak) at two dollars and fifty cents per hundred square feet, which is cheaper and much bet-ter than paint. This Roofing will be found to be the

best thing for covering large Roofs where they are ex-posed to fire—such as Steam Mills, Saw Mills, Factories, Railread Cars. Bridges, Depots, Station Houses, Steamboat Decks, and in fact every kind of Roof where there is an external exposure from ire. As the Roof is perfect, without a joint in it, it presents no chance or fire to communicate, and any light substance will burn ont without igniting.

** Insurance Offices at Cincinnati, and other places where Childs & Co's Cement has been used, insure Buildings with Roofs covered with this Cement, at the same rates as for those covered with Iron, Copper or AT The Cement will be furnished to those at a distance with directions for using.

D Orders sent to the undersigned, through the Post Office will be promptly attended to.

Roca's Remedy for Pulmonary and Tubercular Consumption. HAVING been appointed sole Agent for the sale of Bon Generopeo Roca's celebrated Cree for Cos-

stranos, the public will now be put in possession of one of the most extraordinary remedies extant for what has heretofore been considered an incurable I have the more readily undertaken the agency, from the fact of its extreme simplicity—being an out-toard application, the action of which is seemingly mi-raculous, and its having none of those attributes which make up the numerous compounds now in general With the utmost confidence in the success of this remedy, which has heretofore been used in private practice with great success, as is shown by numerous letters and certificates, is now offered to the public.

A pumphlet, containing directions, letters from distinguished individuals, and documentary evidences from the physicians of the hospital of Havana, Island of Cuba, &c., will accompany the remedy.

These speak volumes in its praise, and publicity is only required to render it as popular as it is benefical. Address.

JAMES REES. Sole Agent for the United States, No. 541 Market street, Philadelphia. Principal Office, 1020 Firzwares. feb11--um Persons of Consumptive Habits,

READ THIS! To the GAFENBERG COMPANY: For the first time in my life I am induced to certify to the truly wonderful effects of a popular medicine, but in sending you the certificate I feel that I am only discharging a duty that I owe to the Grafenberg Company, and more especially to suffering humanity.

About the first of June last, I had a negro man taken with a cough attended with restlessness, spitting of blood, and other dangerous symptoms of consumption. I immediately called in a truly skillful and scientific physician, who told me it was a case of consumption. I immediately called in a truly skinnin and physician, who told me it was a case of consumption. He treated him for several weeks, but he gradually grow worse. I then had another physician of great thin and grew worse. I then had another physician of great reputation in lung diseases. He examined him, and also decided it to be a hopeless case of consumption and said it was useless to spend money in trying to

I had previously promised the Græfenberg Agents here, (Messrs. Wells & Lowell,) that when the doctors gave him up I would try the Græfenberg Consumptive's Baim. I did so and to my agreeable surprise, the man began to improve after taking only five or six doses. He took only two bottles of the Baim and three bottles of the Græfenberg Sarsapariin Compound, which cost me the small sum of nine dollars, and to day I consider him entirely cured. He is worth \$1,200 and he is doing me good service on the plantation. consider him perfectly sound and well as he is fat. hearty, and strong, without a vestige or sign of disease JOHN MYELS,

I have used the Griefenberg Consumptive's Balm in severe cases of consumption, in my practice, with the happiest effect. I wish all would use it. S. MEDARIS, M. D. Totten's Wells, Tenn.
The Græfenberg Consumptive's Balm will effectually cure Consumption and all complaints of the lungs. In cases of Cold on the Lungs and Chest, Languer combined with Difficult Breathing, Pains in the Chest, and Bronchitis, the Græfenberg Consemptive's Balm will effect a complete cure and prevent the disease from

becoming a confirmed Consumption. In all cases, de-lays are dangerous. They are as an hundred fold to all diseases having a tendency to Consumption. We earnestly advise all to procure the Consumptive's Balm 43 The price of the Consumptive's Balm is \$3 per Agent for the Græfenberg Company, for Tennessee, The Great English Remedy. Thorn's Compound Extract of

Copaiba and Sarsaparilla, Possesses advantages not enjoyed by any other med-icine for the cure of sexual diseases, which must with an enlightened public render it assuredly highly popular, and a desideratom long sought for in the med-ical world. It needs no confinement or change of diet. In its approved form, that of paste, it is entirely taste-less, and causes no unpleasant sensation to the patient. It has acquired the numost fame in almost every part of Europe: it has been examined, approved of, and sanctioned by the faculty of medicine, and recommen-ded by the most eminent of the profession. Prepared by J. W. THORN, Chemist, London, and for sale, wholesale and retail by Jone A. Tarnant & Co. Agents or the United States, 278 Greenwich street, New York As the above valuable preparation has been exten tively counterfeited by unprincipled parties in the United States, the proprietor has adopted, as a precaution against imposition on consumers, a Label, of which
